

## Pendant Lamps

Plugs into any wall socket. Or, with our canopy kit, our pendant lamps can be professionally installed as a ceiling fixture.

We've spent the extra money to use a 15½ foot vintage-inspired, fabric-covered twisted pair lamp wire for the right look. With a UL knot and proper strain reliefs, you can hang our lamps with confidence. These are designed to easily hold the weight of our lamps. Each socket has a turn-key switch for easy on and off.

### Each Lamp Includes:

#### Cloth-Wrapped Cord:

Features a 15½ foot vintage-inspired fabric-covered twisted pair lamp wire for the right look.

#### Plastic Clamps:

Included with each lamp or lamp kit, these clamps will help hang your lamp.

#### Ceiling Hooks:

2" long hooks help hang your lamp from the ceiling. Please be sure to screw into studs.
