

T REPRODUCTION TREEN

**These beautiful items might
just fool you!**

These are antique reproductions made of resin. They are cast from the original antiques and carefully finished. Details from the original pieces like the grain of the wood are captured. Our Treen is very primitive-looking; because they are cast from authentic antiques, there are marks, holes and knots. Our Treen has a realistic matte finish and careful attention to detail.

Our Treen is made of resin, carefully painted, and not recommended for use with unwrapped food.
